

We understand the FCC is proposing to expand Low Power FM ("LPFM") service in a way that will allow LPFM stations to take priority over current FM translator service, such as that used in our broadcast area by K-LOVE. We strongly object to the FCC's action if it results in interference with or in any way inhibits the broadcast of K-LOVE's translator service. K-LOVE radio is of vital importance to me personally and certainly serves the public interest in our community. K-LOVE provides unique and valuable communication services in our community with its predominantly music-based format. K-LOVE does, however, provide more than uplifting music. It broadcasts encouraging messages, prayers for its listeners and others, Scripture reading and teaching, and up-to-date news services. If K-LOVE were displaced by an LPFM broadcaster providing alternative programming, in large part these community needs will go unmet. Thank you for your consideration of my Comment.
